IMMUNOTHERAPEUTICS  
FROM BIOLOGY TO PATIENTS CARE

## THE WELCOME NOTE

---

The European Society for Translational Medicine (EUSTM) cordially invites industry partners to attend and apply for the sponsorship opportunities for the 9th Annual Congress of the European Society for Translational Medicine on Immunotherapeutics - From Biology to Patients Care (EUSTM-2022) which will be held Virtual during 3-5 October 2022. This Congress will focus on recent advances in the field of immunotherapeutics for solid tumors, hematological malignancies, autoimmune disorders, infectious disease, Covid, & vaccines covering from biological research, diagnostics & biomarkers to clinical care.

EUSTM-2022 not only provides a unique platform for scientific exchange and discussion about the recent progress in both bench and bedside of immunotherapies for cancer and infectious diseases, but also an avenue for global networking with key stakeholders in academic research, clinical caregiver, public health workers, and industrial leaders.

The delegates will have access to the latest developments and updates by the industry and vendors. Due to interdisciplinary congress, the following slots would provide a great opportunity to showcase services/products to a global multidisciplinary audience. Following types of opportunities are available on 'first-come, first-served basis.

**Prof. Dr Jianyu Roa**  
Chair, Advisory Board, EUSTM

**Prof. Dr Aamir Shahzad**  
President, EUSTM

**Prof. Dr Antonio Facchiano**  
Secretary General, EUSTM
