Setting Standards for Excellence in Translational Medicine

**Fellowship of the
Academy of Translational Medicine
Professionals (FAcadTM)**

European Society for
Translational Medicine

Working for continuing education &
training for clinicians, scientists & community

Fellowship of the Academy of Translational Medicine Professionals (FACadTM)

Fellowship applications are open to highly experienced professionals who have a record of significant achievements in benchside, bedside or community health fields. Eligible disciplines include cellular & molecular biology, genetics, microbiology & immunology, pharmacy, veterinary sciences, drug discovery & development, biophysics & engineering, stem cells & regenerative medicine, public health & epidemiology, data mining & management, biomarkers and clinicians. Successful applicants are typically department heads/chairs and senior academics (full, associate and assistant professors), directors and senior executives with relevant experience. Fellows in the Academy are recognized for demonstration of significant efforts to advance the translational medicine and mission of ATMP. Successful professionals may receive Fellowship certificates at annual congress of the European society for translational medicine (EUSTM)

Fellowship Benefits

- Fellows may use the postnominals 'FACadTM'
- Fellowship may increase your job opportunities and/or promotional possibilities by highlighting you from other colleagues and pool of other candidates.
- Free online access for the society's official journal 'New Horizons in Translational Medicine' (NHTM) published by the Elsevier.
- Keep updated with latest vacancies/jobs by access to job database.
- Reduced print subscription for the 'New Horizons in Translational Medicine' (NHTM) & for 'Translational Medicine Case Reports' journals.
- Discount on registration fees for the EUSTM Annual Conferences.
- Discount on publication charges for the NHTM and TMCR journals.
- Complementary EUSTM annual membership
- Eligibility to get involved in EUSTM Expert panels, NHTM & TMCR journals' editorial boards.
- Keep updated with latest developments and trends in translational medicine field.
- Networking and collaboration opportunities with key opinion leaders (KOLs) & decision makers from academia & industry.
- Fellowship will show your competency to conduct and supervise Translational Medicine studies & Projects.
- Fellowship demonstrates your active involvement and commitment to the advancement of Translational Medicine.

Application Procedure

Eligibility

Clinicians and graduates holding degrees with at least five years of experience in disciplines encompassing benchside, bedside or community healthcare fields. Eligible disciplines include cellular & molecular biology, genetics, microbiology & immunology, pharmacy, veterinary sciences, drug discovery & development, biophysics & engineering, stem cells & regenerative medicine, public health & epidemiology, data mining & management, biomarkers and clinicians. Successful applicants are typically department heads/chairs and senior academics (full, associate and assistant professors), directors and senior executives with relevant experience. For other fields, please contact the academy to check your eligibility.

Qualifying Examination Fees: 150 €

Annual Subscription Fees (2016-2017)

Fellowship (FAcadTM) Fee: 300 €

Fellowship (FAcadTM) Fee: 150 €

Application & CV Submission

Applicants must submit completed Application Form along with CV. Please send your filled form along with CV via email at: atmp@eutranslationalmedicine.org

Based on evaluation, The ATMP educational board will assign a suitable category to the applicants.

Category One

Applicants in this category will receive certification based on evaluation of their track records and experience without qualifying examination.

Category One

Applicants under this category must successfully complete the qualifying examination in order to become eligible for fellowship. Qualifying examination is held once a year at occasion of Annual Congress of the European society for Translational Medicine.

FAcadTM Qualifying Examination

Category two applicants must pass the qualifying exam in order to become eligible for fellow. The next qualifying exam (MCQs type) will be held on 19th October, 2017 (Half an hour duration) at occasion of EUSTM-2017 Congress in Berlin, Germany.

Qualifying Examination Syllabus

- TM General Concepts & Global Situation
- Biomarkers in Clinical Trials
- Data Mining & Management
- Disease Modelling
- Omics Sciences
- Community Health
